

QUALITY, HEALTH & SAFETY and ENVIRONMENTAL POLICY

Dear YILDIZ GEMİ employees.

Our company Yıldız Gemi ve Makine Sanayi Ticaret Anonim Şirketi, which has been operating on the activities of production, export and repair of Mega Yachts, Sailboats, Motor Yachts, continues to develop constantly by adopting ISO 9001 Quality Management System, ISO 14001 Environment Management System and OHSAS 18001 Health and Safety Standard in order to reinforce the quality and reputable image gained as a result of world class productions.

Yıldız Gemi ve Makine Sanayi Ticaret Anonim Şirketi commits to;

Be one of the leading corporates in yacht building and repair industry with high quality, taking customer satisfaction and requests as the basis, developing the processes constantly without compromising the product and service quality,

Ensure that the employees work at appropriate conditions in a healthy and safe environment during the activities they perform,

Create necessary infrastructures, resources and technology, comply with all legislations, regulations and international standards in relation with OHS and Environment,

Put the respect to the human, environment and nature and their protection at forefront,

Share the philosophy of the Quality, OHS and Environment with concerned parties,

Establish a system focusing on constant training, development and enhancement.

As Top Management of Yıldız Gemi ve Makine Sanayi Ticaret Anonim Şirketi, Our Quality, OHS and Environment objectives are as follows;

- Utilizing our Quality, OHS and Environment management system efficiently and enhancing it,
- Ensuring customer satisfaction and continuity,
- Informing, training and auditing our employees, contractors, subcontractors, suppliers and visitors on the health, safety, and environment,
- Reducing the wastes posing damage to the environment and preventing the pollution,
- Reducing natural resource consumption by evaluating our environmental impact resulting from our operations,
- Reducing our occupational health and safety risks and planning actions to manage them,
- Being leader in the "Mega Yacht" production in Turkey and World by implementing the yacht building standards, as well as our industrial experience, qualified workmanship and efficient work processes,
- Preventing occupational accidents and diseases,
- Learning lessons from our failures.

Hoping to share an enthusiastic and quality future, I wish you all success.

Burak AKGÜL
